What makes Altech different?

Altech Electronics is a world leader and pioneer in the manufacture of reliable, durable, and energy-efficient LED Light fixtures. They are engineered to last, and with our unmatched 10 year wrap-around warranty, you can't go wrong with Altech!

Our fixtures offer unparalleled value at 165 LPW efficacy, with motion sensor capabilities, all housed in a highly durable and waterproof die-cast aluminum housing. Additionally, our LED chips are projected to last and illuminate for over 150,000 hours!

With a variety of different applications our fixtures can be applied to, it is no wonder Altech Electronics is the perfect LED lighting solution for shopping malls, warehouses, parking lots, car dealerships, manufacturing facilities, parks, and many more!
