MODIFICATIONS & CUSTOM OPTIONS

Exterior Paint Modifications

Many of Altech's fixtures feature a weatherproof dark bronze coating but Altech provides a number of color customizations to fit your project's aesthetics. All painting modifications use weather-proof paint that resists long term degradation.

*Altech main color options: Black, Grey and White but custom colors are also available upon request.

Motion Sensor & Photocell Installation

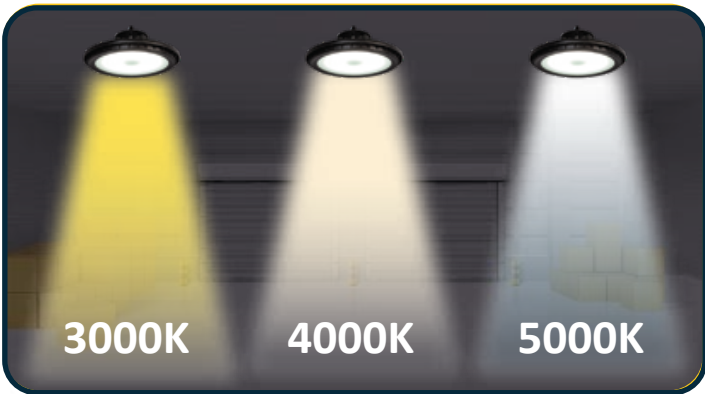

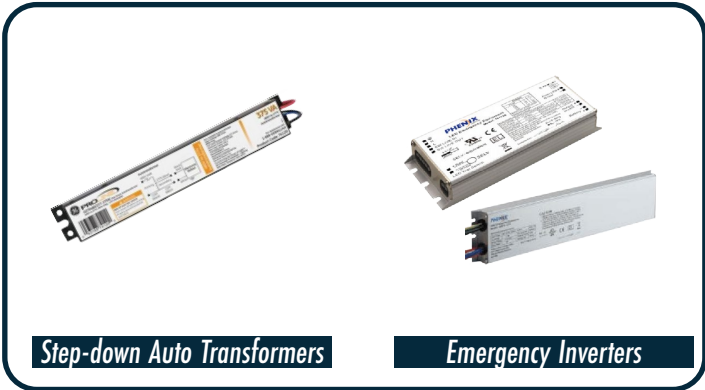

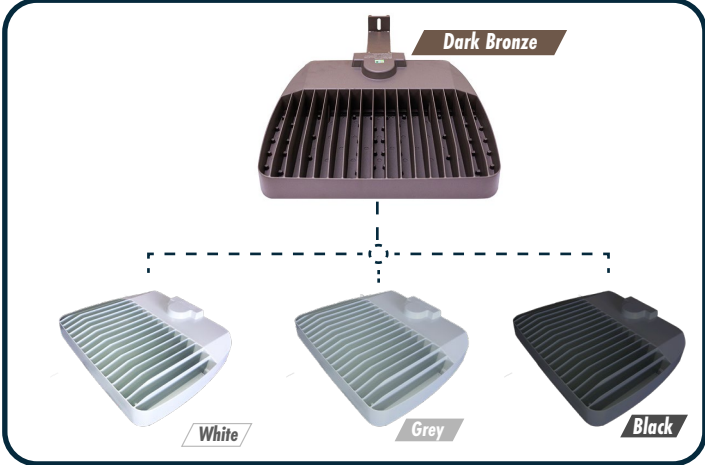

Altech's fixtures are compatible with state of the art energy-saving motion sensors with step down capability and dusk to dawn photocells. Engineered to significantly improve ROI, these remote control programming units are the future to better light performance and sustainability.

Custom Voltage Drivers & Emergency Inverters

Altech provides a variety of voltage drivers, emergency inverters and step-down transformers to match your project's electrical system. Matching our fixtures with your voltage needs will ensure our fixtures run at an optimal level and last as long as possible.

Color Temperature Modification

Altech offers a range of color temperatures to perfectly suit your needs. Whether you're looking for something warm and inviting or cool and refreshing, we have the perfect option for you. With such a wide selection, you're sure to find the perfect color temperature for your lighting projects.
